Version 1, 11/07/2017 Manual (Manual)

We are a motivated team and we organize the Austria eXtreme Triathlon from pure passion for the sport. Read the Haundbuach (Race Manual) carefully to answer your questions. If you still have any questions, ask them either in **German or English!**

This Haundbuach gives advance information about the Austria eXtreme Triathlon on Austrian soil. More detailed information for the participants will follow in 2018 after registration in the form of a Stroßnbuach (Roadbook), with detailed directions. For ease of readability, the masculine notation is used consistently. Content changes reserved!

Austria eXtreme Triathlon - the sporting challenge

Austria eXtreme Triathlon 2018 is the 4th eXtreme Triathlon edition of its kind in Austria. The athletes and their supporter await a sporting challenge amidst the green heart of Austria: from the state capital Graz to Murtal, Lachtal, SölktaI, Ennstal up to the foot of the highest mountain of Styria the Dachstein.

The varied landscape and the rousing motivating atmosphere of the competition promise a terrific adventure for all participants. The focus here is not time measurement, but an incomparable sporting experience.

The track of the Austria eXtreme Triathlon is just as breathtakingly beautiful as it is challenging with more than +5.800 meters of altitude.

The athletes and their supporter go on an exciting journey with fantastic landscapes that lead them across the green heart of Austria.

This triathlon is a long-distance competition.

The atmosphere of the athletes, supporters, partners and the crew is familiar and relaxed.

The time measurement is second. In the foreground are the personal commitment and the challenging adventure that the athletes share with their supporters.

The winning experience amidst spectacular and breathtaking natural landscapes make the event an unforgettable sporting experience.

Explanations of the swimming-, cycling and running track

Swimming course:

The swimming route runs from Mur, the main river of Styria, which flows through Austria, Slovenia, Croatia and Hungary and forms part of its borders between the states. The water quality is of grade two.

If an athlete is assigned, the organization must at least be informed by telephone under the **hotline number +43 664 587 0001** and the GPS tracking system must be delivered to the nearest checkpoint!

Cycling course:

In terms of altitude meters, this section is the most challenging. Remember to properly allocate your energies and choose a corresponding tempo.

Gaberl

At the Gaberl, a former Roman road, you can already see for the first time towards Dachstein. Now it goes steeply downhill to Murtal.

Lachtal

When you arrive at Schönberg, you will always be rewarded by the landscape. The Rothenfels castle in Wölzertal valley is one of the few medieval castles that have preserved their original appearance to this day.

Sölkpass

The Sölkpass with slopes between eight and 12% now rises in front of you. It connects Ennstal in the north with the upper Murtal in the south and crosses the Schladminger Tauern.

At the Sölkpass you are at an altitude of +1,790 meters. As a reward for your efforts so far, you will leave the beautiful valley. ATTENTION, dangerous downhill!

Checkpoint

At each checkpoint, you are obliged to contact the crew verbally!

When an athlete is assigned, the organization team must at least be informed by telephone using the hotline number and the GPS tracking system must be handed over to the nearest checkpoint!

Running track:

Sölksperr

At the magnificent Sölksperr, you descend from the wheel and can absorb the beauty of nature. The running course begins from here.

Strubschlucht

It goes into the Strubschlucht; This separates the small and big Großsölkta. For centuries, the creek has exposed marbles that are easily visible in the gorge.

Michaelerberg-Pruggern / Aich

After about nine kilometers you reach Michaelerberg-Pruggern. The local community was founded as an autonomous body in 1850.

Silberkarklamm

The Silberkarklamm is a romantic whitewater rap in the heart of the Dachsteingebiets. In the 15th century, silver was mined here. Wild nature with alpine plants along the rushing waterfalls leads to the Silberkarhütte.

Lodenwalker

In this traditional business enterprise from 1434, fine suits and costumes, practical jackets, coats, hard-wearing sports and winter clothing as well as Schladminger socks and accessories from pure Schurwolle are produced. Guided tours are offered all year round on weekdays.

This is where the carers park!

Ramsau am Dachstein

Ramsau am Dachstein is the largest Styrian tourist community with a sunny, wooded plateau open to the south. The village is a scattered settlement on the southern side of the Dachstein with a natural park landscape on three floors.

Ramsau-Türlwand: +1,700 meters to +1,900 meters, a south-open high alpine area with extensive hiking trails to the Dachstein shelters.

From the Dachstein-Skywalk look-out platform, there is an unrivaled view.

Südwandhütte

The Dachstein Südwandhütte lies at +1,910 meters above sea level at the foot of the Dachstein Südwände. Shortest climb over comfortable footpath from the glacier cableway in about 35 minutes, beautiful circular walks back to the parking lot.

Wonderful view from the sun terrace! Here, you will be spoiled with regional dishes and drinks. Starting point for hut hikes, all climbing tours and climbing routes in the Dachsteingebiet.

Checkpoint

At each checkpoint, you are obliged to contact the crew verbally!

3. Mandatory Supporter

Responsibility of the supporter

Each athlete needs a personal registered supporter, who accompanies him during the triathlon and feeds him on the bike and running track. Food can be taken at any time along the running course.

The running track is hardly navigable with vehicles.

Without a registered supporter, the athlete does not receive a starting number. During the entire triathlon, the registered supporter assumes the responsibility for his athlete and must be able to communicate with the organizers in German or English. The data of the registered supporter must be announced at the time of registration for the draw. This enables the crew of Austria eXtreme Triathlon to provide both athlete and registered supporter with information on the event by e-mail until the start of the competition. The supporter can be re-nominated until the registration on the day before the race.

For the competition, only one supporter vehicle is allowed per athlete. However, several persons can ride along to accompany the athletes.

The vehicle is marked by the Austria eXtreme Triathlon organization. We recommend not to use buses or camping vans over 3,5 tons for lack of space on mountain roads.

The strict limitation of the vehicles is in favor of the triathlete. There is also a limited possibility to park the car on narrow pass roads.

Accompaniment of the athlete from the Silberkarklamm Checkpoint

From the Silberkarklamm Checkpoint, the supporter is obligated to accompany the athletes in the course of the race. Both must cross the finish line together to complete the triathlon successfully and properly. Failure to do so will result in disqualification!

Supporter T-Shirt

Since the supporter plays an important role in the Austria eXtreme Triathlon, they receive their own finisher T-Shirt on Sunday at the award ceremony. A supporter T-shirt is issued for each athlete. The required clothing size must be indicated at the time of registration and cannot be changed afterwards!

Medical care

The medical team is authorized at any time during the competition to exclude an athlete from the continuation of the race due to medical reasons. A continuation of the race at the Athlete's own responsibility is prohibited.
