Welcome to the Austria eXtreme Triathlon 2025

Change Your Life!

On 21 June 2025, the starting bells will ring for the tenth time for the Austria eXtreme Triathlon in the Murauen south of Graz. As in previous years, this long-distance triathlon is one of the most spectacular in the world.

The challenging course leads right across Styria, covering more than 230 kilometres and covering almost 6,000 metres in altitude.

While tried and tested elements are retained, other aspects are constantly evolving. The closing ceremony will once again take place at the ÖHA in Öblarn, so that the athletes can look forward to a fitting finale.

This race guide serves as your companion and provides comprehensive information and maps for all sections of the course. It contains detailed descriptions of the transition zones, danger spots, drinking water sources and car parks. It also provides an overview of the entire course - from the briefing on Friday to the closing ceremony on Sunday.

Please read all the information carefully!

The Austria eXtreme Triathlon promises a unique experience that focuses on community, fairness and the essence of the original triathlon. This applies both to the impressive natural backdrop far away from the hustle and bustle of big events and to the small details - such as not using poles during the running section.

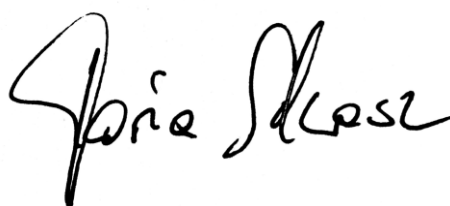

We attach great importance to treating each other with respect and fairness. Athletes and supporters are encouraged to respect nature and support each other in emergencies. As the route leads over challenging mountain passes and trails, flexibility is crucial.

Therefore, always pay attention to the latest information on possible route adjustments!

The organisation team wishes all participants an exciting, sporty, unforgettable, emotional and friendly competition - but above all an accident-free Austria eXtreme Triathlon.

We look forward to welcoming you to the 10th Austria eXtreme Triathlon!

(President, Maria Schwarz)

Dachstein

The Dachstein, the first glacier of the Alps from an eastward direction, is one of the five most visited destinations in Styria. Just approaching with the Dachstein-cable-car is already an adventure on its own. Without any pillars you overcome 1.000 meters difference in altitude just within 6 minutes, while passing steeply dropping cliffs and rocks. And as soon as you reach the Dachstein-glacier you will face a terrific high-mountains-landscape offering probably the widest choice of activities in the whole alp-area.

Lodenwalker

Even though the buildings and machines have been adapted for the present day, the spirit of the business has remained the same. At 1,000 metres above sea level things have their own pace. We still, not only value but rely upon the cooperation with our local community. There are business and family connections which stretch back for generations. Many of our craftsmen and women have been working with us from the same families for just as long.

The old folk used to say "wool needs time". That is exactly how we work. There are no short cuts to quality. Many visitors have found their way to this quiet corner of the world and discovered a place where they can take their time in choosing fine country clothes that they are proud to wear at any time, any place, anywhere in the world. To them and to the many people who we hope will come to see us for the first time we wish,

"G'sundtragen!" (it means: "feel well in our clothes!")
